📅 05 2017 – 07 2020   📍 Manglore, India

Mern Stack Development | Brototype

📅 11 2022 – Present,   📍 Banglore, India

PROJECTS

CaterNinja | 🔗 | 🌐

- The Catering Ninja website is a platform that offers catering services to individuals and businesses. It provides a seamless experience for users to explore catering options, make bookings, and engage in real- time chatting for personalized assistance and inquiries.

Ogani | 🔗 | 🌐

- The Ogani project requires a combination of front-end development (HTML, CSS, JavaScript,) for the user interface, back-end development (Node.js, Express.js) for server-side functionality, and database management (MongoDB) for storing product and user information.

shopping cart | 🔗

- The shopping cart project is a web application that allows users to select and manage items for purchase. It provides a virtual representation of a physical shopping cart, enabling users to browse through products, add items to their cart, update quantities, remove items, and proceed to the checkout process.

Lamasocial | 🔗

- Lamasocial is a modern social media platform that aims to connect people from all around the world. It provides users with a seamless experience for sharing their thoughts, ideas, and moments through posts, as well as engaging in real-time conversations with friends and followers through live chat.
